

CECS 100 Section 15 - Lab Assignment # 15 (10 Points)

Due Friday, November 22 at beginning of class

Number Analysis Program:

Design a program that asks the user to enter a series of 10 numbers. The program should store the numbers in a list then display the following data:

- The list of the 10 numbers
- The highest number in the list
- The lowest number in the list
- The total of the numbers in the list
- The average of the numbers in the list

Notes:

- The output should be meaningful to the user.
- Perform tests (minimum 2) that are not using simple input (i.e. all 1s, etc.)
