

CECS 100 Section 15 - Lab Assignment # 7 (10 Points)

Due Friday, October 18 at beginning of class

Sales Tax

Write a program, using function(s), that will ask the user to enter the amount of a purchase. The program should then compute the state and county sales tax. Assume the state sales tax is 5 percent and the county sales tax is 2.5 percent.

The program should display the amount of the purchase, the state sales tax, the county sales tax, the total sales tax, and the total of the sale (which is the sum of the amount of purchase plus the total sales tax).

Hint:

- Use the value 0.025 to represent 2.5 percent, and 0.05 to represent 5 percent.
