CECS 100 Section 15 - Lab Assignment # 9 (15 Points)
Due Friday, October 18 at beginning of class
Demo program in Lab

Math Quiz

Write a program that gives simple math quizzes. The program should display two random three digit numbers that are to be added, such as

    247

\+   129

The program should allow the student to enter the answer. If the answer is correct, a message of congratulations should be displayed. If the answer is incorrect, a message showing the correct answer should be displayed.

Note:

- You must use functions. You code must have a main() and at least two other functions.
